Attention: Joseph J. Nowak

Subject: Quarterly Monitoring
Hexcel Corporation
Lodi Borough, Bergen County, New Jersey
ISRA Case No. 86009

Dear Mr. Nowak:

On behalf of Hexcel Corp., this letter is to advise you of a temporary change in the Quarterly Water Level/DNAPL/LNAPL Monitoring for the above-referenced site. Specifically, the quarterly monitoring event which is typically scheduled in January for the first quarter of the year could not be completed in January due to continuing inclement weather conditions. Although repeated attempts were made to schedule the event, quarterly monitoring could not be conducted due to the below freezing temperatures over the last two weeks. A large number of the approximately 65 wells, that are included in the quarterly monitoring, have flush-mount surface protection and continue to be under snow cover.

We will conduct the quarterly monitoring as soon as the conditions become practicable. Please call us if you have any questions regarding the above.

Sincerely yours,
HALEY & ALDRICH, INC.
